The journal accepts scientific papers including original research, review article, short communication, case report, and letter to the editor in all fields of bone, joint, musculoskeletal surgery and related researches.

The Archives of Bone and Joint Surgery (ABJS) will publish papers in all aspects of today`s modern orthopedic sciences including: Arthroscopy, Arthroplasty, Sport Medicine, Reconstruction, Hand and Upper Extremity, Pediatric Orthopedics, Spine, Trauma, Foot and Ankle, Tumor, Joint Rheumatic Disease, Skeletal Imaging, Orthopedic Physical Therapy, Rehabilitation, Orthopedic Basic Sciences (Biomechanics, Biotechnology, Biomaterial..).

2. Section Policies

Submission does not guarantee publication. Archives of Bone and Joint Surgery reserves the right to make any changes necessary to accepted articles. The editor deserves the right to determine whether material submitted for publication shall be printed and reserves the right to edit as needed, for space, libelous statements, or personal unwarranted attacks. Opinions are those of the individual writer and not necessarily those of the editor or the executive board.

Articles submitted for publication must deal with issues, not personalities. Articles should be type written, double spaced, using regular Times New Roman size 12 font. All articles submitted for publication are subject to editing. The editor shall be responsible for the editing of all material submitted to the Archives of Bone and Joint Surgery pertaining to libel, spelling, grammar, violation of laws and regulations, length, etc. At no time shall the editor alter the motive, intent or direction of an article. Should any conflict arise, all reasonable effort should be made to contact the writer.
3. Open Access Policy

This journal provides immediate open access to its content on the principle that making research freely available to the public supports a greater global exchange of knowledge.
